<https://www.success-hunter.org/dev-profile> Ranaghat, West Bengal

SUMMARY

Full Stack Developer with 6+ years of experience building scalable enterprise applications using .NET 8, ASP.NET Core, Angular, Azure, SQL Server, and Microservices Architecture. Experienced in Docker, Kubernetes (AKS), Azure DevOps CI/CD, Clean Architecture, and SOLID Principles, with a proven track record of improving application performance, code quality, and deployment reliability.

EXPERIENCE

Consultant

Deloitte

02/2024 - Present Bangalore

Caterpillar - Metaverse Application Engineering Project

- Developed and enhanced enterprise applications using .NET 8, ASP.NET Core, Angular, TypeScript, SQL Server, and Azure, leveraging Clean Architecture, SOLID Principles, and Design Patterns to deliver scalable, maintainable, and high-performance solutions.
- Maintained 85%+ unit test coverage, resolved SonarQube findings, reduced technical debt, and accelerated feature delivery using GitHub Copilot.
- Collaborated with architects, product owners, and cross-functional teams to deliver 15+ enterprise features and support application modernization initiatives across DEV, TEST, and PROD environments using Docker, Kubernetes (AKS), Azure DevOps, and CI/CD pipelines.

Mercedes - Enterprise Application Modernization Project (MOMAS)

- Modernized a legacy ASP.NET MVC application by migrating it to .NET 8 (ASP.NET Core), redesigning APIs to improve code maintainability, scalability, and long-term system stability. Enhanced database performance through refined SQL queries and effective indexing, reducing execution time and improving overall throughput.
- Optimized SQL queries, database indexing, and REST APIs, reducing response times by 30%+ and improving application reliability.

Google - Mosaic Project

- Delivered 20+ feature enhancements and resolved 50+ defects through the Issue Tracker workflow, improving application stability and maintaining high standards of code quality through peer-reviewed development practices.
- Enhanced Angular-based UI components using TypeScript, CSS, and Soy Templates, improving page responsiveness by 25%+ and streamlining critical business workflows.

Senior Software Engineer

LTIMindtree

10/2021 - 02/2024 Kolkata

P&G Trade Promotion Management System

- Developed and integrated 5+ Python FastAPI services with .NET applications, enabling seamless inter-service communication and reducing manual processing effort by 30%+.
- Maintained 90%+ automated test coverage, eliminated SonarQube violations, and reduced regression defects to improve application reliability and release quality.

Software Engineer

Trinity Mobility Pvt Ltd

01/2021 - 09/2021 Bangalore

Motorola CAD Project

- Integrated Azure Service Bus, Azure Data Factory, and Blob Storage to automate data ingestion workflows, reducing processing time by 40%+ and improving system scalability.
- Architected scalable Angular and .NET 5 microservices using Clean Architecture and SOLID principles, supporting high-availability enterprise applications.

Associate Software Engineer

Keabis Tech Pvt Ltd

12/2019 - 12/2020 Bangalore

- Optimized SQL Server databases through query tuning, indexing, and schema improvements, improving query performance by 35%+ and enhancing reporting reliability.
- Collaborated with cross-functional teams to streamline issue management processes, reducing recurring delivery bottlenecks by 15% and improving project delivery efficiency.

TECHNICAL SKILLS

Problem Solving: Data Structures and Algorithms — LeetCode.

System Design: HLD/LLD, Design Patterns, Scalability, Messaging (Kafka, Azure Service Bus)

Frontend: Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Design, RxJS, RESTful API Integration, SPA (Single Page Application), State Management (NgRx)

Backend: C#, .NET Core, ASP.NET Core Web API, REST APIs, Entity Framework Core, LINQ, JWT Authentication, Dependency Injection, Middleware, Asynchronous Programming (async/await), Exception Handling, Node.js, Python FastAPI

Architecture: Microservices, Monolithic, Event-Driven

Database: SQL Server, MongoDB, Azure SQL Database, Cosmos DB, Stored Procedures, Joins & Indexing, Query Optimization, Data Modeling, Backup & Recovery

Cloud Services: Microsoft Azure (Azure Functions, Web Apps, App Service, Key Vault, Application Insights, Storage Account, Service Bus, Azure Data Factory, Cosmos DB)

Tools & IDE: Visual Studio, VS Code, SSMS, Azure DevOps, Jira, Confluent, Postman

Version Control: Git, GitHub, Azure Repos

Others: Agile/Scrum, Unit Testing, Continuous Integration/Deployment, Clean Code Practices, Performance Optimization

CERTIFICATION

Azure Fundamentals (AZ-900)

Azure AI Fundamentals (AI-900)

Google Associate Cloud Engineer (ACE)

AWS Cloud Practitioner (CLF-C02)

EDUCATION

Computer Science and Engineering

Guru Nanak Institute of Technology

06/2014 - 07/2018 Kolkata

Science

Ranaghat Lalgopal High School (H.S)

04/2014 Ranaghat

General

Ranaghat Pal Choudhary High School

04/2012 Ranaghat

HOBBIES

Fitness and running

Problem Solving: Data Structures and Algorithms (LeetCode)
