<https://www.success-hunter.org/dev-profile> Ranaghat, West Bengal

SUMMARY

Results-driven Senior Full Stack Engineer with 6.5+ years of experience designing, developing, and delivering scalable enterprise applications using C#, .NET 8, ASP.NET Core, Angular, Azure, SQL Server, and Microservices Architecture. Experienced in Docker, Kubernetes (AKS), Azure DevOps CI/CD, Clean Architecture, SOLID Principles, and modern software engineering practices. Proven track record of improving application performance, optimizing code quality, building cloud-native solutions, and delivering secure, high-quality software in Agile environments.

EXPERIENCE

Consultant

Deloitte

02/2024 - Present Kolkata

Caterpillar - Metaverse Application Engineering Project

- Developed and enhanced enterprise applications using .NET 8, ASP.NET Core, Angular, TypeScript, SQL Server, and Azure, leveraging Clean Architecture, SOLID Principles, and Design Patterns to deliver scalable, maintainable, and high-performance solutions.
- Maintained 85%+ unit test coverage, resolved SonarQube findings, reduced technical debt, and accelerated feature delivery using GitHub Copilot.
- Collaborated with architects, product owners, and cross-functional teams to deliver 15+ enterprise features and support application modernization initiatives across DEV, TEST, and PROD environments using Docker, Kubernetes (AKS), Azure DevOps, and CI/CD pipelines.

Mercedes - Enterprise Application Modernization Project (MOMAS)

- Modernized a legacy ASP.NET MVC application by migrating it to .NET 8 (ASP.NET Core), redesigning APIs to improve code maintainability, scalability, and long-term system stability. Enhanced database performance through refined SQL queries and effective indexing, reducing execution time and improving overall throughput.
- Optimized SQL queries, database indexing, and REST APIs, reducing response times by 30%+ and improving application reliability.

Google - Mosaic Project

- Delivered 20+ feature enhancements and resolved 50+ defects through the Issue Tracker workflow, improving application stability and maintaining high standards of code quality through peer-reviewed development practices.
- Enhanced Angular-based UI components using TypeScript, CSS, and Soy Templates, improving page responsiveness by 25%+ and streamlining critical business workflows.

Senior Software Engineer

LTIMindtree

10/2021 - 02/2024 Kolkata

P&G Trade Promotion Management System

- Developed and integrated 5+ Python FastAPI services with .NET applications, enabling seamless inter-service communication and reducing manual processing effort by 30%+.
- Preserved 90%+ automated test coverage, eliminated SonarQube violations, and reduced regression defects to improve application reliability and release quality.

Software Engineer

Trinity Mobility Pvt Ltd

01/2021 - 09/2021 Bangalore

Motorola CAD Project

- Integrated Azure Service Bus, Azure Data Factory, and Blob Storage to automate data ingestion workflows, reducing processing time by 40%+ and improving system scalability.
- Architected scalable Angular and .NET 5 microservices using Clean Architecture and SOLID principles, supporting high-availability enterprise applications.

Associate Software Engineer

Keabis Tech Pvt Ltd

12/2019 - 12/2020 Bangalore

- Optimized SQL Server databases through query tuning, indexing, and schema improvements, improving query performance by 35%+ and enhancing reporting reliability.
- Collaborated with cross-functional teams to streamline issue management processes, reducing recurring delivery bottlenecks by 15% and improving project delivery efficiency.

TECHNICAL SKILLS

Problem Solving: Data Structures & Algorithms (LeetCode), System Design (HLD/LLD)

Frontend : Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Angular Material, PrimeNG, RxJS, Reactive Forms, NgRx, Responsive Web Design, SPA Development, Route Guards, Lazy Loading, Authentication & Authorization

Backend: C#, .NET Framework, .NET Core (.NET 5/6/7/8), ASP.NET Core, ASP.NET Web API, Minimal APIs, Entity Framework Core, LINQ, Dapper, REST APIs, GraphQL, gRPC, SignalR, Swagger/OpenAPI, JWT Authentication, OAuth 2.0, OpenID Connect (OIDC), Identity Framework, Dependency Injection, Middleware, Async/Await, Background Services, Hosted Services, Global Exception Handling, Caching, Serilog, Python FastAPI, Node.js, Design Patterns, SOLID Principles, Secure Coding Practices

Microservices & Distributed Systems : Microservices Architecture, Domain-Driven Design (DDD), Clean Architecture, CQRS, Event-Driven Architecture, Distributed Systems, API Gateway, Azure Service Bus, RabbitMQ, MediatR, Event Sourcing, Saga Pattern, Distributed Caching (Redis), High Availability, Fault-Tolerant Systems

Database: SQL Server, Azure SQL Database, MongoDB, Azure Cosmos DB, Google BigQuery, Google Cloud Spanner, Database Design, Data Modeling, Query Optimization, Database Performance Tuning, Execution Plan Analysis, Stored Procedures, Triggers, CTEs, Temporary Tables, Table Variables, Cursors, Advanced Joins, Indexing Strategies, Transaction Management, Backup & Recovery, Data Migration

Cloud & DevOps : Microsoft Azure (App Service, Azure Functions, AKS, Service Bus, Data Factory, Key Vault, Cosmos DB, Application Insights, Azure DevOps), AWS (EC2, Lambda, S3, RDS, DynamoDB, IAM, SQS, SNS), Docker, Kubernetes, CI/CD Pipelines, Infrastructure as Code (ARM/Bicep), Cloud-Native Applications

Tools & Collaboration : Git, Azure Repos, GitHub, Azure DevOps, Visual Studio, VS Code, SSMS, Postman, Swagger/OpenAPI, Jira, xUnit, NUnit, MSTest, Agile/Scrum

CERTIFICATION

Azure Fundamentals (AZ-900)

Azure AI Fundamentals (AI-900)

Google Associate Cloud Engineer (ACE)

AWS Cloud Practitioner (CLF-C02)

ACHIEVEMENTS

- Recognized with Client Excellence Awards from P&G, Caterpillar, and Google for delivering high-impact enterprise solutions, driving technical excellence, and consistently exceeding client expectations

- Demonstrated technical leadership by mentoring engineers, leading cross-functional teams, and successfully delivering scalable, mission-critical enterprise applications with high quality and on-time execution.

EDUCATION

Computer Science and Engineering

Guru Nanak Institute of Technology

06/2014 - 07/2018 Kolkata
